Wilmington, N.C. 28403

To Whom it may Concern

I have had for the last 6 years the pleasure of utilizing the services of Regional Health Diagnostics. I have found them to provide excellent customer centered care in providing sleep testing both PSG, CPAP titration as well as MSLT studies. And now even home based studies.

Best of all they handle the process of getting patients their CPAP machines after their board certified sleep physician has interpreted the results. It is very reassuring to me to have this level of care being provided.

They also provide EEG testing.

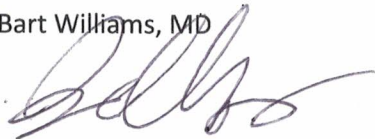

The staff is excellent to work with—our patients are scheduled promptly and painlessly. Results are likewise prompt/accurate and complete.

My patients frequently report how nice everyone is there, in their state of the art facility right here in Wilmington.

They take almost every insurance which is also very helpful.

It is a pleasure to work with them and I wouldn't send my patients anywhere else.

Bart Williams, MD

A handwritten signature in black ink, appearing to read 'Bart Williams', written over the printed name.
