Creating a partnership and a new generation of neurodiagnostic care through remote continuous EEG monitoring service for hospital ICU departments.

REMOTE CONTINUOUS EEG MONITORING

SERVICES CATEGORY	MONITORING QUOTES AND FEES	
cEEG REAL-TIME CONTINUOUS MONITORING		
INTRAOPERATIVE CONTINUOUS EEG MONITORING		

Continuous Real-time Remote Monitoring includes hourly review annotations, and reporting of clinical and technical patient data in real-time and during the entire recording. Reports are provided daily per facility protocol. One technologist assigned with no more than four patients. Our cEEG Monitoring allows for reporting and detection of abnormal significant events and seizure activity as they occur, helping expedite and accelerate real-time changes in patient care.

RHD charges begin when the remote technologist facilitates login for patient and discontinues when monitoring is complete or until patient is handed back to facility (whichever is first).
